Sub: ISSUE REGARDING CSI-INAPP INTERNATIONAL STUDENT PROJECT 2022

Dear Sir,

1. I Sethu Madhavan V G, a 2022 CS2 batch pass-out student. As a part of Academic curriculum activities our CS2 batch was assigned for 11th CSI-InApp International Student Project. Total 12 groups were categorized with each group consist of 4 members were given the ask to do the final year project 2022.
2. Our group was the 12th one and my other team members were Mr. Hariprasad, Ms. Risna Mariyam P.K and Ms. Priyanka P. We were reporting to our Project Co-Ordinator Mr. Ismal P K through Project Guide was Mr. Shahad P. It is indeed a pleasure that our project named "STREAM DATA ANALYZER PLUGIN FOR DESTINY" had been awarded "Second Prize" from the 700+ Projects submitted with over 3000 participants for CSI InApp Awards 2022. Which gives immense proud feeling moment that I and my other members were part of it and honoured to represent the College.
3. At the very same time all our efforts went in vein after knowing that we three of our names (Ms. Risna Mariyam P K , Ms. Priyanka P and myself) were cornered to Special Thanks in a poster (attached) which was published in the college group. That was really a shocking and breathtaking moment where our project contribution has been partialized and was cornered out of effort and the contribution has been nullified.
4. The matter was inquired with our project guide Mr. Shahad P for the reason to avoid us from the project mainstream. Unfortunately, his response was not satisfying one and I was blocked from his Whatsapp number. We don't have any other option rather than to put forward the same in front of management, I believe we will get justice from the management side.
5. Since we have spent all our efforts, money, and time on this project. We felt like all our efforts and contribution were not recognised well. We humbly request to take an appropriate action to sort out this issue at the earliest.

Thanks for your understanding

Regards,

Mr.Sethu Madhavan V G.
